WIDESPREAD Tier 1	>7 new daily cases (per 100k)	>8%	
SUBSTANTIAL Tier 2	4 - 7 new daily cases (per 100k)	5 - 8%	5.3 - 8%
MODERATE Tier 3	1 - 3.9 new daily cases (per 100k)	2 - 4.9%	2.2 - 5.2%
MINIMAL Tier 4	<1 new daily cases (per 100k)	<2%	<2.2%

*To advance to the next tier, a county must also meet health equity measures as described on the right.

**Case rate will be determined using confirmed (PCR-only) cases, and will not include state and federal inmate cases. Case rates include an adjustment factor for counties that are testing above the state average. The incidence is adjusted downwards in a graduated fashion, with a maximum adjustment at twice the State average testing rate.

***HCA is tracking and conducting contact tracing on antigen+ cases

Moving through the Tiers

Rules of the framework:

1. CDPH will assess indicators weekly on Mondays and release updated tier assignments.
2. A county must remain in a tier for a minimum of three weeks before being able to advance.
3. A county can only move forward one tier at a time, even if metrics qualify for a more restrictive tier.
4. If a county's adjusted case rate for tier assignment and test positivity measure fall into the more restrictive tier.
5. The health equity metric is applied to jurisdictions with populations greater than 100,000 described on the [Health Equity Metric page](#).
6. City local health jurisdiction (LHJ) data will be included in overall metrics, and city LHJ surrounding county.
7. An LHJ may continue to implement or maintain more restrictive public health measures if health conditions in that jurisdiction warrant such measures.
8. Tier status goes into effect the Wednesday following each weekly tier assignment announcement.

To advance:

1. A county must have been in the current tier for a minimum of three weeks.
2. A county must meet criteria for the next less restrictive tier for both measures for the current tier to progress to the next tier.
3. In addition, the state will establish health equity measures that demonstrate a county's commitment to its communities within a county.

To move back:

1. During the weekly assessment, if a county's adjusted case rate and/or test positivity has fallen within a more restrictive tier for two consecutive weekly periods, the county must revert to the more restrictive tier.
2. Counties with a population less than 106,000 will have a small county criteria applied to it to ensure movement to a more restrictive tier is appropriate. Description of the small county framework is below.
3. Counties will have three days, beginning the Wednesday after tier assignments are announced on Tuesdays, to implement any
